

The newest innovation for undercabinet illumination from Progress Lighting.

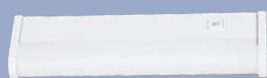

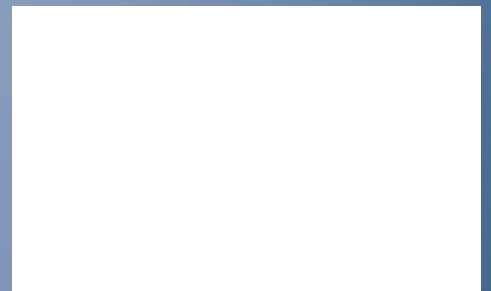

The Hide-a-Lite 3 system is the premier direct-wire linkable solution for undercabinet lighting. Utilizing a very low profile direct-wire junction box (P8740) that acts as the heart of the HAL3 system, the undercabinet fixtures can easily be linked together with the Quick-Link cables (P8733-P8738) to form a complete and flexible undercabinet solution.

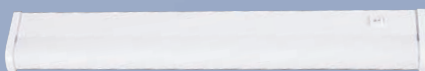

Multiple types of lamp sources, including T-5 Fluorescent and Xenon, are available in various length housings that can be joined together to form a complete Hide-a-Lite 3 undercabinet lighting system.

T-5 FLUORESCENT STRIPS

HIDE·a·Lite³

P7020-30EBWB
Size: 3-1/4" W., 1-1/8" ht. 12" L.
Lamp: One F8T5 lamp (included). 8w

P7021-30EBWB
Size: 3-1/4" W., 1-1/8" ht. 21" L.
Lamp: One F13T5 lamp. (included). 13w

P7022-30EBWB
Size: 3-1/2" W., 1-1/8" ht. 34" L.
Lamps: One F8T5 and one F13T5 (included). 8w and 13w

P7023-30EBWB
Size: 3-1/4" W., 1-1/8" ht. 42" L.
Lamps: Two F13T5 lamps (included). 2 x 13w

120V XENON SERIES

Direct Wire and Linkable, with long-life 120V Xenon lamps (Avg. 8,000 hours)

P7032-20WB
P7032-30WB
One-light 120V Xenon undercabinet.
Size: 3-1/2" W., 9-1/2" ht.
Lamp: One G8 bi-pin 120V Xenon lamp, 20w (incl.)

P7033-30WB
P7033-20WB
Two-light 120V Xenon undercabinet.
Size: 3-1/2" W., 9-1/2" ht.
Lamps: Two G8 bi-pin 120V Xenon lamps, each 20w (incl.)

P7034-20WB
P7304-30WB
Three-light 120V Xenon undercabinet.
Size: 3-1/2" W., 9-1/2" ht.
Lamps: Three G8 bi-pin 120V Xenon lamps, each 20w (incl.)

P7032-20WB

P7035-30WB
P7035-20WB
Four-light 120V Xenon undercabinet.
Size: 3-1/2" W., 9-1/2" ht.
Lamps: Four G8 bi-pin 120V Xenon lamps, each 20w (incl.)

HIDE·a·Lite³

The "heart" of the system is a patented new low profile direct-wire box.
